

Durable Medical Equipment

Durable Medical Equipment (DME) refers to any equipment ordered by a doctor to aid in the safety and health to our patients, for use in the home.

Equipment includes:

Hospital bed

We provide semi-electric and full-electric beds with mattresses. A semi-electric bed means the head of the bed and the foot of the bed can adjust electronically; the height of the bed moves up and adjusts manually. A full-electric bed means the head of the bed, the foot of the bed, and the height of the bed adjust electronically (upgrade fee applies since insurance does not cover this).

Foam mattress is included*

Semi-Electric Bed:

Weight Limit: 450 pounds

Dimensions: 36" (w) x 88" (L) (Twin Double Long)

Minimum Height: 16"

Maximum Height: 24.5"

Full Electric Bed:

Weight Limit: 750 pounds

Dimensions: 48" (W) x 88" (L)

Minimum Height: 18.25:

Maximum Height: 26.25"

It's a quiet and smooth operation that is easy to set up, with a frame with provides comfort and reduced weight, and a zinc-coated spring deck. There is also a clip on pendant, which mounts on the bed rail to aid in the operation of the head and foot section simultaneously.

Beds include your choice of full rails or half rails and a foam mattress

Warranty: 5 years
